To whom it may concern

Re Ace Safety Academy Ltd

Carpenter Ltd is a top tier Control of Major Accident Hazard (COMAH) site. This means that the Health and Safety Executive (HSE) conduct regular inspections of our operation based on their intervention plans.

I confirm that Carpenter Ltd have dealt with Ace Safety Academy Ltd for over 12 months, during which time they have provided our company with various training courses including confined space, water jetting, self-contained breathing apparatus and airline breathing apparatus. Which have always been extremely well organised and presented.

I have worked with Peter Jackson the Managing Director on numerous projects over the past 20 years, while he has held senior positions with similar training and consultancy companies, during these projects he has always demonstrated his expertise and vast experience aiding the company in resolving safety issues placed upon us by legislation and the HSE.

I have therefore no hesitation in recommending this company for training and consultancy projects.

If you require any additional information please feel free to contact me at david.nield@carpenter.com.

. Yours faithfully
