**Re: Testimonial for Ace Safety Academy**

*Ace Safety Academy has been providing our Civil Engineering Operations Division with all aspects of health and safety, utility and management training for the past 10 years. I have always found the training content to be of a very high professional standard, in accordance with up to date legislation and delivered by the finest of adeptly competent tutors.*

*Bespoke courses have been created to suit our own training needs and the Ace team is aware of the importance of my team's early stage involvement to ensure our requirements are fulfilled.*

*Pete, Val & Nicole pride themselves on the quality of their training facilities and understand the importance of customer service ensuring that delegates return time and time again.*

*I would have no hesitation in recommending Ace Safety Academy to any other company who require a proficient all round training experience.*

**Ian Evans**

**Environmental Services Manager (Engineering Projects)**
